

海皇紀

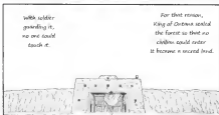

He had known
what his people
Terito Forest
in Ontario,

who wouldn't
allow anyone to
go nearby

Because there's a
magical beast named
Forest Guardian.

With soldier
guarding it,
no one could
touch it.

For that reason,
King of Ontario sealed
the forest so that no
civilian could enter
it became a sacred land.

My
memories
of that time,

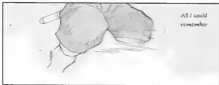

I would never
forget it, but
it felt just like
being a dream.

I don't know
if it's because
of a shock,

All I could
remember

It was
overwhelming
fear

from inside
that mist

*But for some reason,
my face was smiling*

*and that my
body cannot
stop trembling*

That moment,
I learned about
two things:

What it means
to be afraid and...

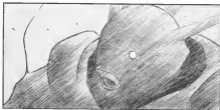

just

as i

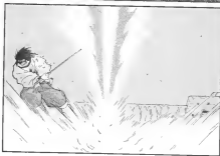

then i
thought
i was

stronger

i was

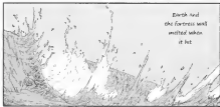

that even
when I dodged,
it still scorched my
skin and clothes.

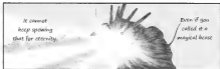

Earth and
the fortress wall
melted when
it hit.

It almost
kept spreading
that far away.

Even if you
called it a
magical beast.

I kept
dodging for
many times.

By the time
I realized,

and went back
to the forest.

the Forest Guardian
had turned away
from me.

and a
horrifying hunger.

I felt a huge
relief after seeing that

*keep getting
stronger so
I can defeat
it once and
for all*

*I
want to*

*And how are
you planning
to get stronger?*

*Not by
hunger. You
should call it
obsession.*

*He's right.
You should
call it an
obsession.*

*For me,
searching for
Kingku alongside
Mala.*

He's Gass!
Ondorelle

He's not.
He's our
royal guest.

And you're
one of their
retainers?

My homeland
is a small country
up North called
Euronole

Is
that
so?

I became friends
with Ondora Royalty
after that incident
with the Forest
Guardian.

Breaking
their treaty
for many
years

And just as
mentioned earlier,
Kazuhito attacked
Ordina.

52

His last
words were

I met Plain who
was escaping with
The Kingdom's
Magician, Veritas.

a Great
Magician called
"Veritas"

The only one
who knows
about Kazuhito
is probably

"Go find
Kazuhito"

If you can
get your hands on it,
you will obtain a great
amount of power.

The founder Sea King
had borrowed power
from Inuyōin for
many generations,

Within
the Sea
Clan,

or up the
story has
been told

the location
of Inuyōin?

So do
you know

I
don't

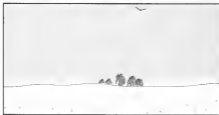

with Sasana, please come up with better names.

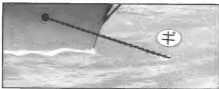

Or are
they on their
way to
Gardun?

Are they
checking you
two

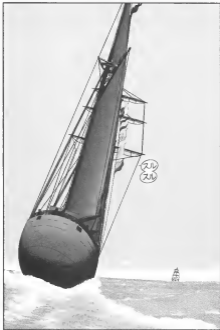

To encounter
them is the
kind of place.
Too
big of a
coincidence.

If they are Rowidia
vass, they should've
known Sea Clain's
flag.

That looks
like they've
already
known.
